EDUCATION

Gauhati University <i>Bachelor of Commerce, Finance</i>	2014 – 2017 6.2 CGPA
Assam Higher Secondary Education Council <i>Higher Secondary (Commerce)</i>	2013 – 2014 62.4%
Board of Secondary Education, Assam <i>High School Leaving Certificate</i>	2011 – 2012 64.3%

EXPERIENCE

American Express <i>Customer Care Professional → Retention Specialist</i>	Gurgaon May 2021 – Aug 2022
• Maintained a 75% Customer Save Rate, exceeding the process average by 5+ percentage points. • Handled 2,400 support calls per quarter with 95% customer satisfaction rate. • Drove completion of up-skilling & mandatory training for 2 teams consisting of 30 members in total.	
Tata Consultancy Services <i>Information Processing Specialist → Sr. Information Processing Specialist</i>	Kolkata Jul 2017 – May 2021
• Piloted a Direct Debit Calculator using HTML, CSS, and JavaScript – automating 12 month energy payment projections and generating explanations on demand, cutting per-interaction handling time by up to 4 minutes across 150+ agents. • Pioneered a template repository SPA for high frequency customer scenarios, reducing email composition from full manual drafting to minimal customisation — cutting turnaround time, improving quality scores, and standardising responses across 7–8 teams of 20–25 agents. • Collaborated on a Single Page Application to replace a client-shared Excel process handbook, extending access to 80–120 agents who previously had no Office Suite licence, eliminating licensing costs and improving process knowledge consistency across 4–5 ODCs. • Led mass training sessions for 60+ employees on SAP CRM-ISU and newly developed production tools, improving team process knowledge & calibration. • Reduced company cost by up to \$27,000 per quarter through data-driven audits identifying critical outliers.	

PROJECTS

Invoice Management Desktop App <i>Tauri 2.0, React, TypeScript, SQLite, Tailwind CSS</i>
• Replaced a manual paper-based process, reducing invoice creation time for a family business through the app. • Architected complete CRUD operations for creating, editing, and deleting invoices, with a clean, responsive UI. • Integrated a native Rust backend via Tauri 2.0's IPC bridge, enabling local SQLite operations without a network layer.
SazDrive, A Google Drive Clone <i>Node, Express, Prisma ORM, EJS, REST API, Dynamic Routing, Passport.js</i>
• Engineered a Google Drive clone with multipart uploads & hierarchical folders persisted in PostgreSQL. • Designed RESTful APIs to support infinitely nested folder navigation and server-side rendering of contextual file views. • Implemented secure session-based authentication to restrict data access to authenticated users.
Personal Blog App <i>React, React Router, Node, Express, TypeScript, JWT, REST API</i>
• Enabled end-to-end authentication with registration, login, token issuance, and protected routes. • Developed a dual-interface blog system with separate admin & public interfaces.
Baki <i>React Native, Expo, JavaScript, SQLite</i>
• Developed a mobile application to digitize credit/payment tracking for a small business. • Implemented local data management for debtors, outstanding balances, and repayment records using SQLite.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, HTML, CSS
Frontend: React, React Native, Tailwind, React Router, Responsive Design
Backend: Node, Hono, Express, REST API, Prisma
Database: PostgreSQL, SQLite
Tools: Git, Figma, Vite, npm, pnpm

CERTIFICATIONS

- Harvard CS50x
- Responsive Web Design, freeCodeCamp
- Google UX Design
- React, HackerRank
